

CEI Materials' modular **CLADLOK™ CS (Custom Series)** Panel System is easily installed to a wide variety of substrates and subgirt systems. This cassette style plate panel system has all interlocking edges formed from 1 piece of metal and does not require any additional components other than the fasteners that attach it to the wall or subgirt. This significantly reduces installation durations compared to other cladding systems on the market and offers a variety of architecturally appealing façade options without limitations.

CLADLOK™ CS (Custom Series) Panel System

The CUSTOM Series offers the options for unique shapes and sizes and can be perforated or embossed. With our custom fabrication techniques, if you can conceive it, we can construct it. Our sales representatives will work with you to find the right fit for your building's exterior aesthetic.

CLADLOK™ Custom Series Features & Benefits

- Non-Combustible
- 100% Recyclable
- 20 Year Finish Warranty on Painted Options
- Works Well With Continuous Insulation
- No Sealants or Gaskets
- Easily Field Cut
- Little to No Maintenance
- Available in Embossed or Perforated
- Unique Fabrication Options
- Made in the USA
