

CLADLOK™

MODULAR PANEL SYSTEMS

QUICK PRODUCT GUIDE

VS · VALUE SERIES | **SS · SIGNATURE SERIES** | **CS · CUSTOM SERIES**

The CLADLOK™ family is engineered for versatility while maintaining simplicity. Organized into three distinct series — from ready-to-order to fully customized solutions — CLADLOK™ offers architects, contractors, and owners a modular panel system that adapts to the demands of the project.

CLADLOK™ Series Overview

The CLADLOK™ system is engineered for versatility while maintaining simplicity. The product line is organized into three distinct series - Value, Signature, and Custom - providing solutions that range from pre-engineered, ready-to-order systems to fully customized designs tailored to a client's unique vision and requirements.

VS Value Series

SPEED & EFFICIENCY

Designed for projects where schedule and cost efficiency are the priority. The Value Series delivers consistent performance with fixed module sizes and expedited lead times.

Panel Depth: 1-3/4"

Reveal: 1/2"

Patterns: Grid, Stack, Running Bond

Material: Aluminum

Finish: Standard post-painted / prefinished

Transitions: Brake metal trim, 2-piece extrusions

Lead Time: Expedited

Min. Order: 500 sq ft per color/size

SS Signature Series

PERFORMANCE & FLEXIBILITY

Expanded material options and profile flexibility make the Signature Series the right fit for projects that require more design expression without custom tooling.

Panel Depth: 1-3/4" to 4" (Standard, Dimensional, Tapered)

Reveal: 1/2"

Patterns: Grid, Stack, Running Bond

Materials: Aluminum, Zinc, Copper, Stainless/Weathering Steel

Finish: Custom & standard post-painted / prefinished

Transitions: Formed corners, panel terminations

Lead Time: Standard

Min. Order: 500 sq ft per color/size

CS Custom Series

ARCHITECTURAL EXPRESSION

For projects where design intent demands full customization — unique patterns, perforations, specialty materials, and bespoke finishes — the Custom Series delivers a turnkey solution.

Panel Depth: 1-3/4" to 2"

Reveal: 1/2" to 1"

Patterns: Custom patterns & features

Materials: Aluminum, Zinc, Copper, Stainless/Weathering Steel

Finish: Custom colors, textures, perforations

Transitions: Formed corners, finish welding, custom extrusions

Service: Turnkey with pre-bid consultation

Lead Time: Project specific

Min. Order: 500 sq ft per color/size

CLADLOK™ Series Comparison

Use this chart to quickly identify the best-fit CLADLOK™ series for your project needs.

Features	Value Series (VS)	Signature Series (SS)	Custom Series (CS)
Panel Depth	1-3/4" (Fixed)	1-3/4" to 4"	1-3/4" to 4"
Reveal Width	1/2" Nominal	1/2" Nominal	1/2" - 1" Nominal
Available Patterns	Grid, Stack, and Running Bond	Grid, Stack, and Running Bond	Custom Patterns, Unique Features
Materials	0.080 and 0.063 Aluminum	Aluminum, Zinc, Copper, Stainless, A505 Steel	Aluminum, Zinc, Copper, Stainless, A505 Steel
Finish Options	Standard Post-Painted, Prefinished	Custom and Standard Post-Painted, Prefinished	Custom Colors, Textures, Perforations
Transitions	Brake Metal Trim, CLADLOK® 2-Piece Extrusions	Formed Corners, Panel Terminations	Formed Corners, Finish Welding, Custom Extrusions
Standard Service	Ready to Order	Take off's, Design Review, Shop Drawings	Turn-key Solution with Pre-bid Consultation
Lead Time	Expedited	Standard	Project Specific
Minimum Order	500 sqft per color/size	500 sqft per color/size	500 sqft per color/size

Which CLADLOK™ Series Is Right For Your Project?

Choose VS • Value Series if your project requires a fast, cost-efficient solution with standard profiles and a streamlined ordering process.

Choose SS • Signature Series if your design calls for expanded material options, profile variety, and full fabrication support — without the need for fully custom tooling.

Choose CS • Custom Series if your project demands fully bespoke panel design, unique perforations, specialty finishes, or complex geometric expressions.

Why CEI Materials?

CEI Materials is a nationwide fabricator of architectural cladding systems and components. From concept to completion — new construction or retrofit — we provide end-to-end support: design assist, 3D laser scanning, project management, precision fabrication, and delivery coast to coast.

Need help identifying the right CLADLOK™ solution?
CEI Materials can help evaluate the right fit for your design intent, schedule, and project requirements.
