DURABLE, DISTINCT FAÇADES

ATTRACTIVE AND LONG-LASTING FAÇADES ARE ESSENTIAL TO CLIENTS, TENANTS AND BUYERS. WITH TRESPA® METEON® YOUR BUILDING IS GUARANTEED TO STAND OUT TODAY AS WELL AS TOMORROW.

Trespa® Meteon® can be used in countless applications and has proven its worth in real-life projects for over half a century. Whatever your architectural goals and vision is, there will be a right solution.

TRESPA® METEON®:

- WEATHER RESISTANT & COLOR STABLE
- LOW MAINTENANCE & EASY TO CLEAN
- SOLID & STURDY

HIGH QUALITY, LOW MAINTENANCE

Trespa® Meteon® performs exceptionally well outdoors and it stays looking great for many years. Sun and rain have no significant effect on the panel's surface. Since nobody is keen on maintenance and the related costs and time investment, Trespa® panels have been developed to minimise this. The neatly closed, pore-free, uniform surface practically withstands dirt accumulation, keeping the product smooth and easy to clean. Graffiti can be treated with the right cleaning agents. A practical approach to saving on maintenance.

INNOVATION IS IN OUR DNA

Trespa has close ties to the global design community, with its own design centres in New York, Barcelona and Santiago de Chile. Our technology centres are constantly innovating and developing new products to open new possibilities for customers.

That approach has allowed us to come up with aesthetic innovations such as the Meteon® Lumen range, which allows architects to play with light reflection, or functional innovations like Solar Reflectance Technology (SRT), which allows the use of darker façade colors in hot climates.

SERVICE & RELIABILITY

Making your façades attractive and durable is as important to us as it is to you. We strive to support all parties in a building project, helping ensure each application is a lasting success. We can help find the best solutions for specific designs and detailing, we offer on-time panel delivery and provide training.

All technical information regarding Trespa® Meteon® is clearly presented on www.trespa.info.

SUSTAINABLE SOLUTIONS

Trespa® Meteon® contains up to 70% natural fibers and is available with PEFC™ or FSC™ certification. Its sustainable character is expressed through long-lasting performance. Trespa® Meteon® is often used in energy renovation projects, providing fresh new looks to buildings with improved energy performance.

VENTILATED FAÇADES

TRESPA® METEON® PANELS ARE PERFECT FOR USE IN INNOVATIVE AND FUNCTIONAL VENTILATED FAÇADE SYSTEMS. VENTILATED FAÇADES ARE MORE THAN A DESIGN GESTURE - THEY MAY PROVIDE ENERGY EFFICIENT, LONG-LASTING PROPERTIES AND IMPROVED COMFORT OF THE INDOOR ENVIRONMENT.
