

INTRODUCING ALUCOBOND®'s NEW naturAL COLORS

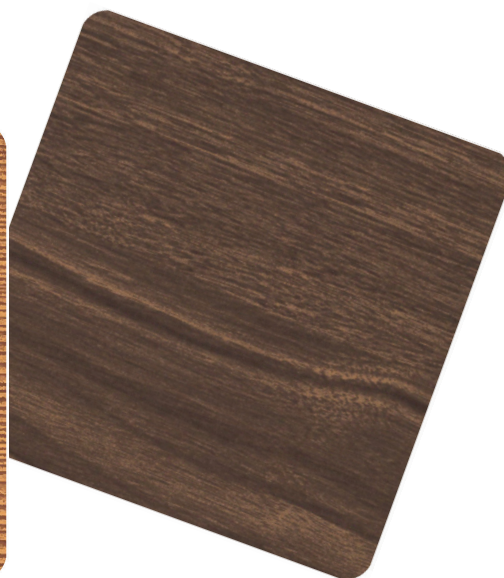

Alucobond naturAL colors amplify the inherent beauty and character of natural elements, like wood, to enhance the design of your architectural project. The naturAL wood grain finishes unify the effortless beauty of wood with the outstanding durability and light weight properties of aluminum. Available in three different patterns, Alucobond wood facades create an aesthetic, modern ambience.

NEW! BEACHWOOD

NEW! CHESTNUT

NEW! RUSTIC WALNUT

MATERIAL COMPOSITION

- › Aluminum facings in 0.020" nominal thickness (interior and exterior to ensure flatness)
- › Proprietary fire-retardant core available in 4mm thickness only (PLUS)
- › High performance architectural finish

FEATURES & BENEFITS

- Light, high rigidity, very flat
- Vast color selection
- Vibration-damping
- Easily fabricated
- Large panel sizes, fast installation
- Low cost for substructures and fasteners, smooth handling on the site
- Unlimited planning and design
- No additional sound-damping needed
- Simple processing using conventional tools
- Short construction times, adherence to schedules
