

# ULTRA PANEL SERIES

## Wave Panel

Wave Panels are ribbed architectural wall panels designed to create strong lines and shadow effects. The profile depth provides design flexibility through bold visual expression paired with efficient, cost-effective installation. Panels may be specified with either a no-clip or clip-fastened attachment to accommodate thermal movement.

### Product Features:

- Optional Clip Installation for Expansion/Contraction
- Cost-Effective Installation
- Horizontal or Vertical Installation
- 40-Year Limited Finish Warranty
- Panel Lengths: 30' Max for Steel, 25' Max for Aluminum on the Thru-Fastened Leg; Longer Lengths Available on Clip Panels

### Technical Details:

#### Material

- 24 Gauge Steel
- 22 Gauge Steel
- .032 Aluminum
- .040 Aluminum
- Galvalume Plus

#### Specs

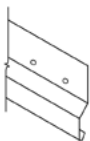

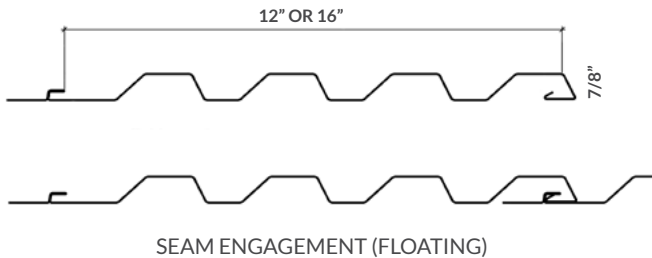

- 12" or 16" Wide
- 7/8" High

#### Testing

- ASTM E 283
- ASTM E 330
- ASTM E 331
- AAMA 1592
- FL 45939

#### System Details

All system details at CEI Materials are available in Autocad & Revit.

OPTIONAL WIND CLIP (FOR FLOATING SYSTEMS) 22 GAUGE SS

**Note:** Oil canning is not a cause for rejection.
